VX STAIRWELL SCAFFOLD

Lightweight access equipment for working over stairways

VX Stairwell Scaffold

The Instant VX Stairwell Scaffold provides overhead and wall access over stairways. Its lightweight aluminium construction and compact folding sections make it easy to handle, assemble and transport. Adjustable legs accommodate different stairway rise and run.

Kit Contains

- 2 x 6 Foot Platforms
- 1 x One Piece Folding Stairwell Base Station
- 1 x 2m Frame Ladder
- 1 x 2m Plain Ladder
- 4 x Diagonal Bars
- 4 x Straight Bars
- 2 x Safety Rails

Assembly in five simple steps

No tools required. Use the folding base, platform and standard aluminium parts.

STEP 1

Unfold the base section and position it on the stairwell.

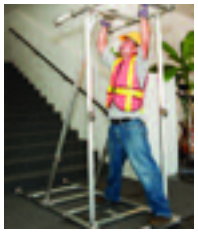

STEP 2

Add aluminium extension frames to reach the required height.

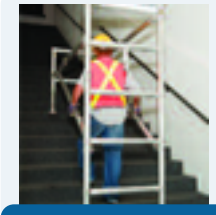

STEP 3

Fit the platforms and continue assembling the tower.

STEP 4

Install guardrails, toeboards and outriggers as required.

STEP 5

Check the completed assembly before use.

Technical Specifications
